October 11th, 2021

Dear Esteemed Advisor and Student Leader,

We cordially invite you and your institution to our seventh annual Southern China International Model United Nations (SCIMUN) conference. SCIMUN VII will be held on March 17th through 19th, 2022, at the JW Marriott Hotel Bao'an, in Shenzhen, China.

SCIMUN 2022 plans to uphold the integrity of SCIMUN by conducting our conference on the basis of our motto: *student-led, student-initiated, and student-involved*. Our commitment to professionalism, sustainability, global connection, cooperation, leadership, and development imbues all our actions to ensuring an unforgettable life experience for all the participants of this conference.

During the span of our three-day conference, the students will represent a member state of the United Nations, otherwise known as a delegate, and debate about the international issues in their respective committees. The conference will serve for the purpose of improving the participant's communication, research, and debating skills, as well as enhancing their understanding of the current global relations and their identity as a global citizen. Historically, our five former Secretary Generals have presented SCIMUN conferences under the themes of *Sustainability, the Rule of Law, International Security, Global Development, Redefining Authority, and Suppressing Disorder*.

As per tradition, it is my honor to announce this year's SCIMUN theme: **A World For All**. Following the events of Covid-19, the world has been placed in a state of isolation. Whether it is the closed borders and halted immigration internationally, or the continuous lockdowns, leaving citizens trapped in their households, we have faced two appalling years of disconnection. Hence, witnessing a positive outlook on the pandemic, SCIMUN VII urges attending delegates to look forward and consider a broader conundrum: How do we, as global citizens, create a united and equal "World For All" despite all the disassociation and apprehension? It is through our conference that we hope for our delegates to find innovative methods of nurturing not only a world of peace, but also of one that removes discrimination and promotes inclusivity. A World For All.

This year, SCIMUN will be offering the following committees: **Security Council (SC), Historical Committee, World Health Organization (WHO), Human Rights Council (HRC), and United Nations Development Program (UNDP)**. In order to attend the conference, please fill out the registration form attached to this email or visit our official SCIMUN

website www.scimun.net to fill out the 'Initial Registration' posted on the 'Registration' Section. Should there be any inquiries, feel free to contact us at scimun2022@outlook.com or at our official wechat account 'SCIMUN 2022'.

Once again, it is with great pleasure that we invite you to SCIMUN 2022. I look forward to meeting you all in March.

Sincerely,

Nana Cheung

Secretary General

Southern China International Model United Nations VII
